CHARLES de SALES WHEELER

Candidate for Justice of the Peace
Phoenix East Precinct

Charles de Sales Wheeler, in this issue of The Republican announces himself a candidate for the office of Justice of the Peace of East Phoenix precinct subject to the action of the democratic primaries on September 12, 1916.

Mr. Wheeler sought the southwest some five years ago as a promising field in which to make his home and enter upon a legal career. He took up his residence in Phoenix about three years ago, having been married in this city, and has during this period taken a keen interest in the political affairs of this state. He has been entrusted with various important public duties which he has ably fulfilled and under the Fair Commission of 1915 held a

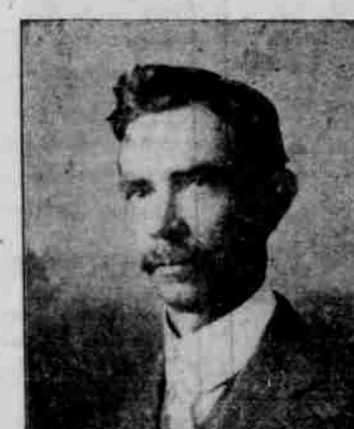

trustworthy position in the auditor's department.

Mr. Wheeler comes from a long line of lawyers and statesmen, foremost among whom was the late John Hill Wheeler of North Carolina, his grandfather, who was the foremost statesman and writer of his day, having been sent as a special envoy to France and minister to Venezuela. His History of North Carolina is credited as the most authentic history of that state.

Chas. de Sales Wheeler was born in Washington, D. C., March 23, 1891, and was reared and educated in the Capital City, having attended the Central High School and St. John's College. His early career was somewhat blighted by injuries received in athletics during his college course, and from which he has not as yet fully recovered. Mr. Wheeler's thorough education and the fact that for the last two years he has been studying law and handling Justice Court cases for the law firm under whose guidance he has been studying law peculiarly fit him for the office which he seeks. He has always associated himself with the best interests of this community, and he therefore invites a thorough investigation of his General Character, Standing and Qualifications.

If elected it is safe to predict that the Court will be conducted in a manner in keeping with the dignity of the office and that everyone who has any dealings with the Court will be treated fairly and squarely, the Law to be lived up to at all times.

J. A. RIGGINS

Democratic Candidate for

State Superintendent of Public Schools

BETTER TANKS

A process that I am now using in renewing all kinds of galvanized tanks is proving a real boom to the ranchman, the cattleman, the dairyman and others. All of my work has given universal satisfaction, and I want the opportunity of saving you this money that you would otherwise put into new work entirely. Talk it over with me. If your tank is giving you trouble it will be to your interest to see me. Figure with me on anything in the sheet metal line. All mail orders receive prompt and active attention.
